Alltype Building Contractors Limited

Alltype Building Contractors successful performance on this scheme to upgrade properties in Epping Forest to the Governments Decent Homes Standard saw the project extended considerably.

Alltype Building Contractors quality of product and delivery of service resulted in a further 200 properties being added to the original 125. The project covered a wide area with many properties being located in rural villages. The area covered stretched to many outlying Areas of Epping, Waltham Forest, North Weald, Thedon Bois, Loughton, Buckhurst Hill, and North to villages surrounding Harlow.

Kitchen and Bathroom refurbishment in occupied dwellings require both effective communication skills and efficient use of resources. Alltype Building Contractors worked hard to ensure residents were kept in informed of the progress of works at all times to ensure disruption was kept to a minimum, especially considering the distance between some properties. Alltype Building Contractors quality of product and delivery of service ensured over all customer satisfaction was achieved.
